

Roundabout Sponsorship

As you may know, Hillingdon is a vibrant Outer-London borough with thriving business centres and a commitment to working closely with our business community to deliver further economic growth. Hillingdon's aim is to become one of the best performing councils in London. We are customer focused, performing well and delivering on our key priorities. We aim to make the borough the best place for people to live, work and learn.

The Council is keen to work in partnership with companies to continue the current regeneration of the area and build on major investments taking place. We recognise that we are part of a team and need to work together to provide the best possible levels of service to all our residents.

As such, Hillingdon is an ideal area in which to promote your company, situated, as it is at the gateway of major routes into the capital and containing Heathrow Airport, which is one of the world's busiest airports, with 64 million passengers passing through it every year.

Statistically, Hillingdon also has one of the highest number of road users in the country, driving within or through the borough. Therefore, sponsorship in key strategic locations within the borough benefits the sponsor by promoting the company or organisation to these road users.

Hillingdon operates a landscape sponsorship scheme through its partnership with UK Roundabouts Ltd. UK Roundabouts Ltd is a specialist-marketing organisation which seeks and contracts commercial sponsors in the borough.

There are currently twenty suitable locations within Hillingdon that display promotional, or sponsorship signs.

(See our current sponsors below)

The revenue generated by this activity enables Hillingdon to enhance the landscaping or floral displays throughout the borough, therefore improving the environment for those living, working or studying in the borough.
