PART B - Your representation.

Please use a separate sheet for each representation

Name or Organisation: Bourne End Investments Ltd				
Q1. Which document are you making a representation on?				
☐ Further Addendum to the Sustainability Appraisal				
Q2. To which Main Modification does this representation relate?				
MM30				
Please specify which part of the Main Modification you are referring to: Policy Wording, Paragraph, Table or Figure / Map you are referring to:				
Paragraph 3.5 of the Site Allocation Document and Policy SA39 Site A - Text and				
Site Information Table				
Q3. Do you consider the Main Modifications are:				
Legally Compliant?				
Sound?				
☐ Yes ☐ Yes, with minor changes ☐ No				

Q4. If you consider the Main Modifications are <u>unsound</u> , is it because they are <u>not</u> :				
□ Positively Prepared?				
☐ Justified?				
⊠ Effective?				
☐ Consistent with National Policy?				
Q5. Please give details of why you consider the Main Modifications are not legally compliant or are unsound. Please be as precise as possible.				
If you wish to support the legal compliance or soundness of the Main Modifications, please also use this box to set out your representation.				
Please note your representation should cover succinctly all the information, evidence and supporting information necessary to support/justify the representation and suggested changes.				
MM30 references avoiding reference to minimum and maximum housing numbers which is supported.				
However, the Site Allocation Document (with modifications) does not clarify this intention clearly in additional explanatory text and as such the main intent of the main modification is not achieved.				
Existing London Plan Policy 3.4 stresses the importance of optimising housing capacity on development sites and emerging Policy D6 strengthens this further confirming that proposed residential development that does not demonstrably				
optimise the housing density of a site in accordance with the policy should be refused.				

Q6. Please set out what change(s) you consider necessary to make the Main Modifications (and so the Plan) legally compliant or sound, having regard to the test you have identified at Q4 above where this relates to soundness. You will need to say why this change will make the Main Modifications (and so the Plan) legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible:				
Paragraph 3.5 of the Site Allocation Document (main modifications) relating to the quantum of development on application sites should be amended to clearly state and confirm that:				
"Housing figures for all housing sites (with or without existing / historic planning permissions) are indicative only and final numbers will be determined through the development management process and in particular the requirement of the London Plan, and in particular existing London Plan Policy 3.4 and emerging Policy D6, which seek to optimise the capacity of development sites."				
The Policy Tables in the document (including Policy SA39 Site A) should be amended to reference minimum capacity / units to ensure capacity can be optimised in accordance with policy.				
Q7. If your representation is seeking a change, do you consider it necessary to participate at any further oral part of the examination? N.B. it is expected that Main Modifications will be addressed through written representations.				
☐ No, I do not wish to participate at any further oral part of the examination				
$oxed{\boxtimes}$ Yes, I wish to participate at any further oral part of the examination				

Q8. If you wish to participate, please outline why you consider this to be necessary.

Please note: the Inspector will determine the most appropriate procedure to adopt to hear those who have indicated that they wish to participate at the oral part of the examination. The Inspector may consider that it is not necessary to reopen the hearings and has already indicated that he is unlikely to do so.

The wording of the Site Allocation document and specific Policy wording for Site SA39 Site A Trout Road are essential to bringing forward the site for re-development and the amended wording to date is not considered to fully reflect the discussions on this issue during the Hearing session in August 2018.
