Hillingdon at a glance, 2017

- **Population** – comparing the 2011 Census figures with those with GLA Interim 2015-based population projections, the borough's population in 2017 has increased by approximately 10.9% (from 273,936 to 303,870); by comparison London's population has increased by 8.5%. Over half of Hillingdon's 44.6 square miles is a mosaic of countryside including canals, rivers, parks and woodland. Hillingdon has an average of 25.9 people per hectare; this is the third lowest population density among London boroughs.
- **Gender** – 152,246 of borough residents are male and 151,624 are female.
- **Age** – 21.7% of the borough population is under 16, 6.1% over 75 and 72.1% aged 16-74 (this is defined as working age).
- **Ethnicity** - Hillingdon's White British population decreased from 73% in the 2001 Census to 52% in the 2011 Census; Hillingdon's BAME population increased from 27% to 48% in the same period. Current data (from the Greater London Authority 2015 Round Trend-based Ethnic Group Population Projections) shows that Hillingdon's White British population in 2017 is 43% and the BAME population is 57%.
- **Religion¹** - the predominant religions in the borough at 2011 are Christian – 134,813 (49.2%), Muslim – 29,065 (10.6%), Hindu – 22,033 (8.0%) and Sikh – 18,230 (6.7%), we also have a large percentage of residents stating 'no religion' – 46,492 (17.0%) and other – 23,303 (8.5%).

¹ Religion statistics are based on Census 2011 data (latest data)

They show the calculated prevalence of patients on a GP register, recorded as having a given condition. It should be noted that patients registered in this ward do not necessarily live in the wards within Uxbridge & West Drayton locality, or the Borough.

The graphs show recorded prevalence at England, London, borough and locality level. Uxbridge & West Drayton contains 14 GP surgeries.

Cardiovascular conditions

The prevalence of **coronary heart disease** within Uxbridge & West Drayton is 2.06%, which is lower than England, Hillingdon and Ruislip & Northwood, but higher than London and Hayes & Harlington:

The prevalence of **atrial fibrillation** within Uxbridge & West Drayton is 1.40%, which is lower than England, Hillingdon and Ruislip & Northwood, but higher than London and Hayes & Harlington:

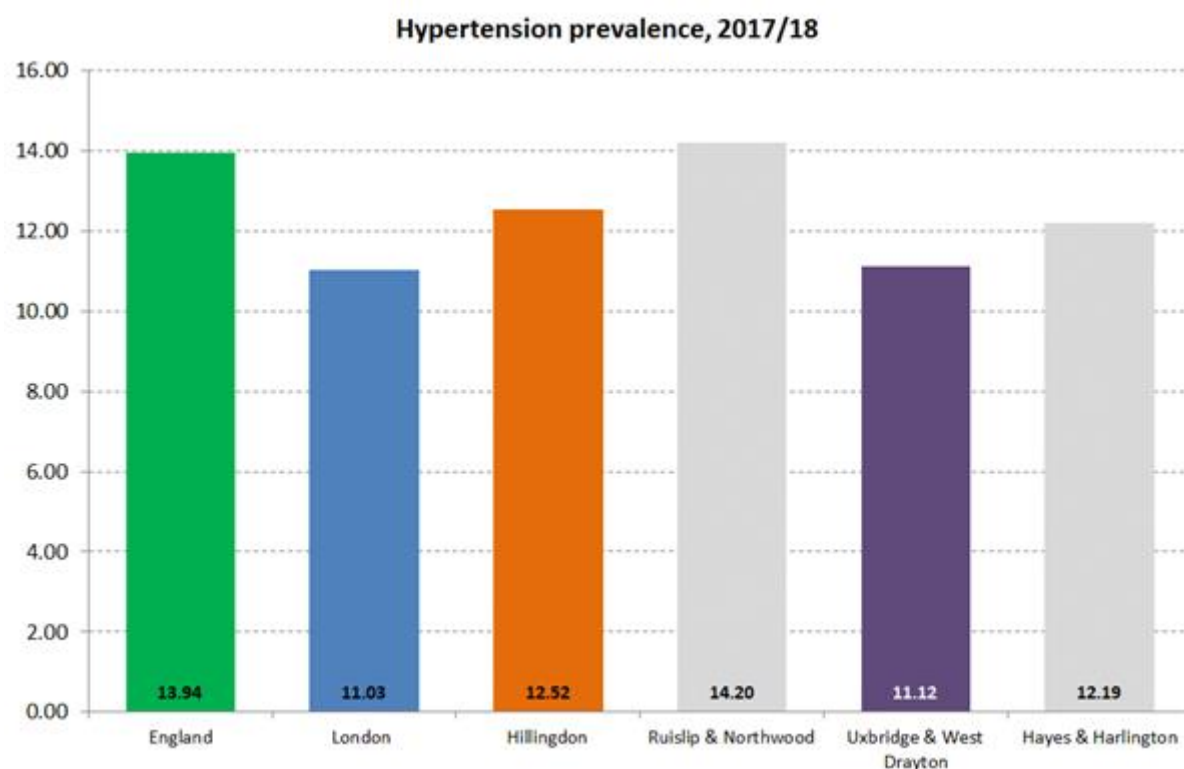

The prevalence of **cardiovascular disease** within Uxbridge & West Drayton is 1.17%, which is lower than Hillingdon and Ruislip & Northwood, but higher than England, London and Hayes and Harlington:

The prevalence of **heart failure** within Uxbridge & West Drayton is 0.48%, which is lower than England, London, Hillingdon and Ruislip & Northwood, but higher than Hayes & Harlington localities:

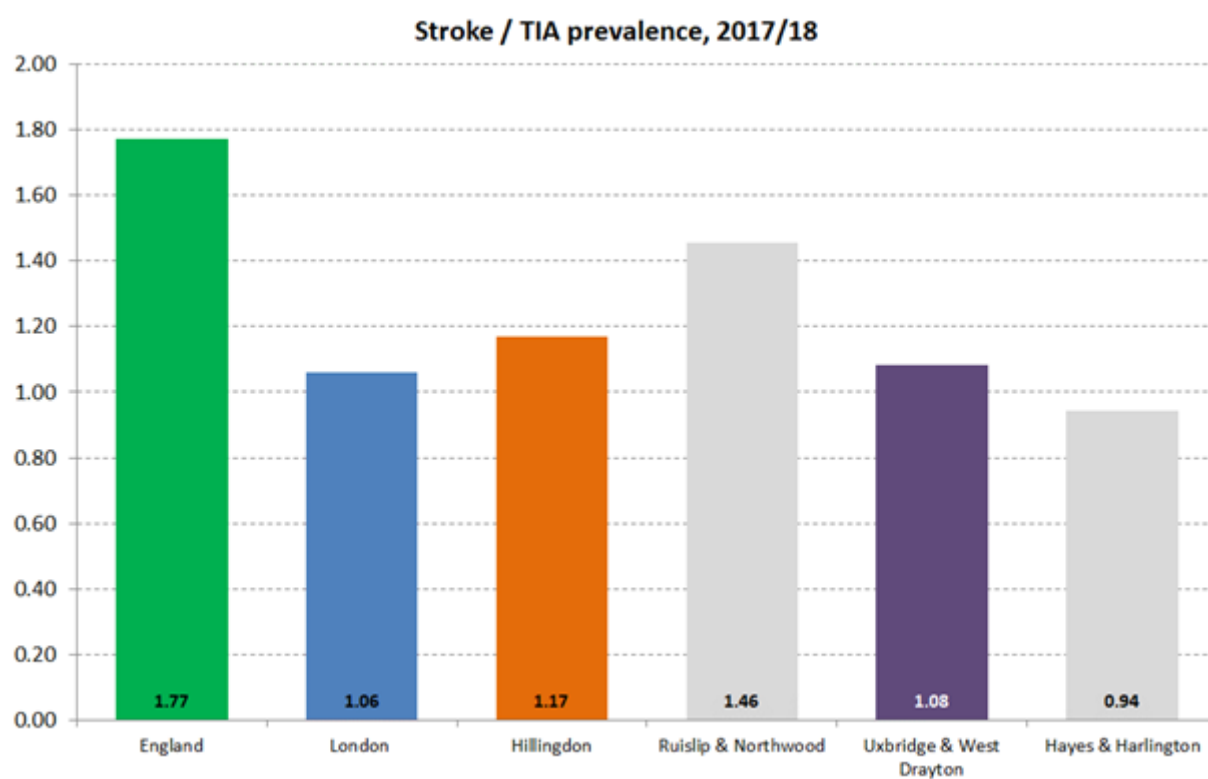

The prevalence of **hypertension** in Uxbridge & West Drayton is 11.12%, which is lower than England, London, Hillingdon and the other localities:

The prevalence of **peripheral arterial disease** in Uxbridge & West Drayton is 0.41%, which is lower than England, Hillingdon and Ruislip & Northwood, but higher than London and Hayes & Harlington:

The prevalence of **stroke / transient ischaemic attack** Uxbridge & West Drayton is 1.08%, which is lower than England, Hillingdon and Ruislip & Northwood, but higher than London and Hayes & Harlington:

Respiratory conditions

The prevalence of **asthma** within Uxbridge & West Drayton is 4.77%, which is lower than England, Hillingdon and Ruislip & Northwood, but higher than London and Hayes & Harlington:

The prevalence of **COPD** within Uxbridge & West Drayton is 1.36%, which is lower than England, but higher than London, Hillingdon and the other localities:

Mental Health and Neurology conditions

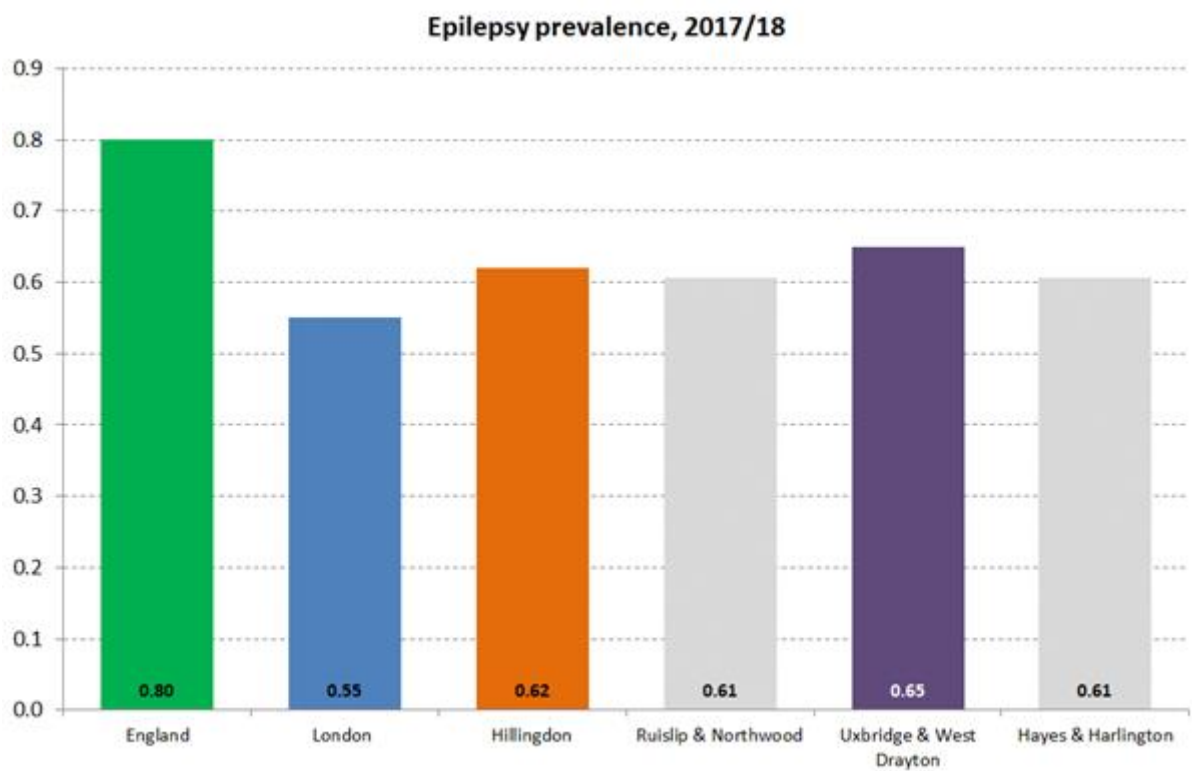

The prevalence of **dementia** in Uxbridge & West Drayton is 0.56%, which is lower than England, Hillingdon and Ruislip & Northwood, but higher than London and Hayes & Harlington:

The prevalence of **depression** within Uxbridge & West Drayton is 7.80%, which is lower than England and Ruislip & Northwood, but higher than London, Hillingdon and Hayes & Harlington:

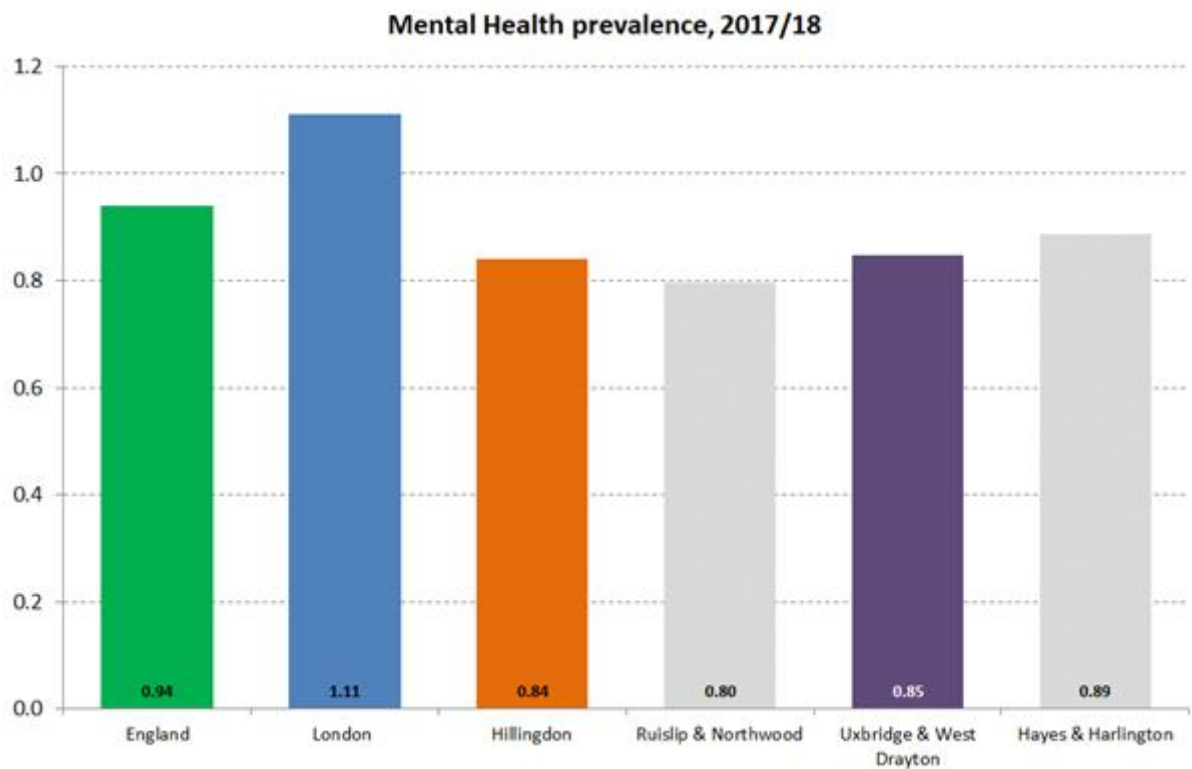

The prevalence of **epilepsy** in Uxbridge & West Drayton is 0.65%, which is lower than England, but higher than London, Hillingdon and the other localities:

The prevalence of **learning disabilities** in Uxbridge & West Drayton is 0.36%, which is lower than England, the same as London but higher than Hillingdon and the other localities:

The prevalence of **mental health** in Uxbridge & West Drayton is 0.85%, which is lower than England, London and Hayes & Harlington, higher than Hillingdon and Ruislip & Northwood:

High Dependency and Long Term conditions

The prevalence of **cancer** in Uxbridge & West Drayton is 1.69%, which is lower than England, London, Hillingdon and Ruislip & Northwood, but higher than Hayes & Harlington:

The prevalence of **chronic kidney disease** in Uxbridge & West Drayton is 2.32%, which is lower than England, Hillingdon and Ruislip & Northwood, but higher than London and Hayes & Harlington:

The prevalence of **diabetes** in Uxbridge & West Drayton is 6.55%, which is lower than Hillingdon and Hayes & Harlington but higher than England, London and Ruislip & Northwood:

The prevalence of **palliative care** in Uxbridge & West Drayton is 0.27%, which is lower than England, Hillingdon and Ruislip & Northwood but higher than London and Hayes and Harlington:

Other conditions

The prevalence of **osteoporosis** in Uxbridge & West Drayton is 0.37%, which is lower than England and London and higher than Hillingdon and other localities:

The prevalence of **obesity** in Uxbridge & West Drayton is 7.46%, which is lower than England, London, Hillingdon and Hayes & Harlington, but higher than Ruislip & Northwood:

Obesity prevalence, 2017/18

Estimated Prevalence

The estimated prevalence is the number of patients who may have a condition but who have not been diagnosed.

The graphs show estimated prevalence at England and GP level (data is not available at London, borough or locality level). Estimated prevalence is available on a limited number of conditions; data is taken from the latest Disease & Risk Factor Prevalence profile on Fingertips, 2015 (<https://fingertips.phe.org.uk/profile/prevalence>).

Uxbridge & West Drayton contains 14 GP surgeries. As before, patients registered with these GP practices do not necessarily live in the ward or borough.

Diagnosed Hypertension

Within the locality, The Oakland Medical Centre (Uxbridge North) has the highest estimated prevalence of diagnosed hypertension and Brunel Medical Centre (Brunel) has the lowest. For comparison, the observed prevalence of hypertension in the locality is 11.03%:

Undiagnosed Hypertension

Within the locality, The Oakland Medical Centre (Uxbridge North) has the highest estimated prevalence of undiagnosed hypertension and Brunel Medical Centre (Brunel) has the lowest. For comparison, the observed prevalence of hypertension in the locality is 11.03%:

Coronary Heart Disease (CHD)

Within the locality, Otterfield Medical Centre (Yiewsley) has the highest estimated prevalence of coronary heart disease and Acorn Medical Centre (Uxbridge North) has the lowest. For comparison, the observed prevalence of CHD in the locality is 2.09%:

COPD

Within the locality, West Drayton Medical Centre (West Drayton) has the highest estimated prevalence of COPD and Brunel Medical Centre (Brunel) has the lowest. For comparison, the observed prevalence of COPD in the locality is 1.40%:

Heart Failure

Within the locality, The Oakland Medical Centre (Uxbridge North) has the highest estimated prevalence of heart failure and Brunel Medical Centre (Brunel) has the lowest. For comparison, the observed prevalence of heart failure in the locality is 0.46%:

Peripheral Arterial Disease (PAD)

Within the locality, Otterfield Medical Centre (Yiewsley) has the highest estimated prevalence of PAD and Acorn Medical Centre (Uxbridge North) has the lowest. For comparison, the observed prevalence of PAD in the locality is 0.43%:

Stroke

Within the locality, Belmont Medical Centre (Uxbridge North) has the highest estimated prevalence of stroke and Acorn Medical Centre (Uxbridge North) has the lowest. For comparison, the observed prevalence of stroke in the locality is 1.1%:

Depression

Within the locality, the Wallasey Medical Centre (Ickenham) has the highest estimated prevalence of depression and Brunel Medical Centre (Brunel) has the lowest. For comparison, the observed prevalence of depression in the locality is 6.43%:

Glossary

What is a Ward Profile - a Ward Profile is designed to provide economic, social data and health data for each ward based on latest available data sets, and provides an understanding of an area to assist with local service planning.

Occupation types
