

Hillingdon Voices United

HILLINGDON
LONDON

The Hillingdon Voices United project, delivered by the council's stronger communities team and supported by the Mayor's Office for Policing and Crime, aims to:

- strengthen community cohesion,
- build resilience and
- improve community relations

The project is enabling the local community to work together to raise awareness and understanding of hate crime and extremism and how to tackle these issues.

We want to encourage more young people to feel confident in challenging hate and discrimination and in promoting greater understanding, respect and unity.

Participating learners have produced infomercials, poems, lesson plans, documentaries and more. This work will form part of a community learning resource to be utilised by other schools and local community organisations.
